

Faculty Positions, Division of Global Health, MassGeneral Hospital for Children

The Division of Global Health at MassGeneral Hospital for Children is seeking outstanding investigators to join a vibrant group of clinicians and researchers.

We are committed to building a culturally and intellectually diverse community with a shared commitment to improving the health of the most vulnerable children in our global community. We encourage applications from highly original and collaborative scholars with diverse skills, interests, and backgrounds. We strongly encourage women, sexual and gender minority people, and people underrepresented in medicine to apply.

Examples of possible interests include, but are not limited to:

- Environmental health, pollution, and toxicology
- Human migration and child health
- Antibiotic resistance, use, and stewardship
- Nutrition and child development
- Human immunity and vaccines
- Diagnosis of childhood diseases

The faculty member will be expected to develop and implement a cutting-edge research program to advance child health globally. The faculty member will be expected to build interdisciplinary collaborations with others in the MGH, Harvard Medical School, and the local and global community.

Both clinician and non-clinician doctoral-level researchers are encouraged to apply. There are no strict methodologic requirements for this position. Individuals with background in laboratory sciences, epidemiology, computational approaches, social and behavioral science, community-based participatory research, patient-oriented research, and/or mixed methods research are all welcome to apply.

An established track record of external funding, a record of high-quality peer-reviewed publications, and a proven ability to lead or contribute to multi-disciplinary teams is required. Positions are available at the Instructor, Assistant and Associate Professor level. Academic rank at Harvard Medical School and salary will be commensurate with qualifications and experience.

Please submit a cover letter describing research interests, a curriculum vitae, and names of 3 references to:

Jason B. Harris, MD, MPH, FAAP, FIDSA
Chief, Division of Global Health,
MassGeneral Hospital for Children,
Associate Professor of Pediatrics,
Harvard Medical School
